Press Release - 12/26/07 For Immediate Release

## AP Racing Front and Rear Brake Kits for the 2008 Subaru WRX

**Front Brake Kit: 4-Piston, 13" 2-Piece Rotor**

**Part # [AP3100R](#) and [AP3100](#)**

**Rear Brake Kit: 4-Piston, 13" 2-Piece Rotor**

**Part # [AP6350R](#) and [AP6350](#)**

Brake Pros' complete four corner AP Racing brake system is the ultimate braking upgrade for the 2008 Subaru WRX. As with all AP Racing kits, it is designed to perform with the factory OE master cylinder and is fully compatible with the factory ABS systems. AP Racing is the brand chosen by the Subaru USA factory teams on their rally cars, for its superior quality and performance. The choice is easy when the brand has been proven in both national and international competition.

Our world famous AP Racing 4-Piston aluminum calipers with 13" cross-drilled and slotted two-piece rotors provide a dramatic increase in stopping power, but really shine under repeated hard use. Slotted only rotors are also an option, if desired. Our rear brake kit even retains the factory emergency brake, for those dual purpose cars that also serve as daily drivers.

All Brake Pros kits come complete with caliper mounting brackets, DOT-compliant stainless steel brake lines, high performance Mintex Xtreme brake pads and all the necessary high-grade installation hardware. Now you can possess the same advanced brake technology preferred in NASCAR, Formula 1, World Rally Car (WRC), Champ Cars, and more at an affordable price.

The Mintex Xtreme Pads supplied with this kit do not compromise wear and noise for superior stopping capability. These pads are good from 0-1300° F and do not squeal like most "high performance" pads. They also work cold, unlike other compromised pads which may leave you shaken up on the first stops of the day.

Available in two colors: Red calipers with black script or Black calipers with yellow script.

Other applications available. For more information, please contact Brake-Pros at 800-711-4123.

*Brake Pros, a division of Steve Millen Sportparts, Inc., has been bringing championship winning brake technology to the street since 1990. All design, development and testing are done at their Costa Mesa, CA headquarters under the direction of legendary IMSA Champion and multiple record holder, Steve Millen.*
