

# Brake Pros

Performance Braking Systems

Press Release - 11/19/07 For Immediate Release

**2005-2007 Chevrolet Corvette C6 / Z51 / Z06  
4-Piston, 14" Two-Piece Rotor AP Racing Rear Brake Kit  
Part # [AP6050](#) and [AP6050R](#)**

Brake Pros' 4-Piston, two-piece rotor AP Racing rear brake system is the ultimate brake upgrade for the C6 Corvette. When combined with the available 6-Piston, two-piece rotor AP Racing front brake system, the full potential of the C6 Corvette can be realized on the street and at the track. This is especially true when pushing the Z06 past the limits of the factory brakes.

AP Racing is the same manufacturer chosen by the factory C6.R race team for its legendary quality and performance. Packing a massive increase in stopping power, this kit gives the performance-minded driver full confidence whether at the track or running the canyons. As with all AP Racing kits, it is designed to perform with the factory OE master cylinder and is fully compatible with factory ABS subsystems. The world famous AP Racing 4-Piston aluminum calipers with 14" (356mm) cross-drilled and slotted two-piece rotors ensure that your Corvette will stop time and time again, reducing the fade found in the stock brakes. This kit does fit behind stock Z06 wheels and retains the factory parking brake. All Brake Pros kits are shipped 100% complete with caliper mounting brackets, DOT-compliant stainless steel brake lines, Mintex Xtreme brake pads and all the necessary high-grade installation hardware.

The Mintex Xtreme Pads supplied with this kit do not compromise wear and noise for superior stopping capability. These pads are good from 0-1300° F and do not squeal like most "high performance" pads. They also work cold, unlike other compromised pads which may leave you shaken up on the first stops of the day.

Now you can possess the same advanced brake technology preferred in NASCAR, Formula 1, World Rally Car (WRC), Champ Cars, and more at an affordable price. Designed for use with our 6-Piston front kit so you can perform a full system four corner upgrade.

Available in two colors: Red calipers with black script or Black calipers with yellow script.

Other applications available. For more information, please contact Brake-Pros at 800-711-4123.

*Brake Pros, a division of Steve Millen Sportparts, Inc., has been bringing championship winning brake technology to the street since 1990. All design, development and testing are done at their Costa Mesa, CA headquarters under the direction of legendary IMSA Champion and multiple record holder, Steve Millen.*
