## AP Racing Brake Kits

**2007 BMW 335i, 2006-2007 330i and 328i (E90, E91, E92 Chassis)**

**6-Piston, 14.25" Rotor AP Racing Front Brake Kit and**

**4-Piston, 13" Rotor AP Racing Rear Brake Kit**

**Front Kit Part # [AP6400](#) or [AP6400R](#)**

**Rear Kit Part # [AP6450](#) or [AP6450R](#)**

Our AP Racing front and rear brake systems are the ultimate braking upgrade for the newest generation of BMW 3 Series. Packing a massive increase in stopping power, this setup gives the performance-minded driver full confidence whether tooling around on the highway or participating in track days. As with all AP Racing kits, it is designed to perform with the factory OE master cylinder and is fully compatible with factory ABS subsystems. The factory parking brake is retained for dual purpose vehicles that spend time on the street as well as on the road course.

The world famous AP Racing 6-Piston aluminum calipers with 14.25" cross-drilled and slotted two-piece rotors can be paired with AP Racing 4-Piston aluminum calipers with 13" cross-drilled and slotted two-piece rotors in the rear for the ultimate 4 corner upgrade available for the BMW 3 Series. Complete with caliper mounting brackets, DOT-compliant stainless steel brake lines for both front and rear, high performance Mintex Xtreme brake pads and all the necessary high-grade installation hardware. Now you can possess the same advanced brake technology preferred in NASCAR, Formula 1, World Rally Car (WRC), Champ Cars, and more at an affordable price.

Mintex Xtreme Pads, included in the kit, do not compromise wear and noise for superior stopping capability. These pads are good from 0-1300° F and do not squeal like most "high performance" pads. They also work cold, unlike other compromised pads which may leave you shaken up on the first stops of the day.

Available in two colors: Red calipers with black script or Black calipers with yellow script.

Other applications available. For more information, please contact Brake-Pros at 800-711-4123.

*Brake Pros, a division of Steve Millen Sportparts, Inc., has been bringing championship winning brake technology to the street since 1990. All design, development and testing are done at their Costa Mesa, CA headquarters under the direction of legendary IMSA Champion and multiple record holder, Steve Millen.*
