## AP Racing Rear Brake Kit 2003-2008 Infiniti FX35 and FX45 Part# [AP5550](#) and [AP5550R](#)

AP Racing's 4-Piston caliper, matched with Brake Pro's two-piece 15" rotor make this AP Racing brake system the ultimate rear brake upgrade for the Infiniti FX35 and FX45. Packing a massive increase in stopping power, this kit provides confidence around town, while towing or exploring mountain roads. As with all AP Racing kits, it is designed to perform with the factory OE master cylinder and is fully compatible with the factory ABS system. At the heart of this kit are our world famous AP Racing 4-Piston aluminum calipers and 15" (378mm) cross-drilled and slotted two-piece rotors with aluminum hats. This setup virtually eliminates the fade found in the stock brakes. All of our big brake kits are delivered complete with caliper mounting brackets, DOT-compliant stainless steel brake lines, Mintex Xtreme Motorsport brake pads and all the necessary high-grade installation hardware.

Mintex Xtreme Motorsport pads do not compromise wear and noise for superior stopping capability. These pads perform between from 0-1300° F with less noise than most "high performance" pads. They also work cold, unlike other compromised pads which may leave you shaken up on the first stops of the day.

Now you can possess the same advanced brake technology preferred in NASCAR, Formula 1, World Rally Car (WRC) and more at an affordable price.

**Our matching AP Racing 6-Piston, two-piece rotor front brake kit is available under part number [AP5500](#) or [AP5500R](#).**

Available in two colors: Red calipers with black script or Black calipers with yellow script.

Other applications available. For more information, please contact Brake-Pros at 800-711-4123.
